Goofi Series: Problem Solving & Creativity

About the Content

Understanding map directions is one of the most important skills that children's can develop as they learn geography, Earth, and environmental sciences. This is a unique content which has been made based on many studies conducted on children's spatial thinking. The content is designed in a way that will help children to learn about map directions and solving problems related to directions. This content will raise children's problem solving skill when they understand basic map directions and apply them in different activities without adult supervision.

About goofi

Goofi is a global platform for young children to develop their future skills like creativity, emotional intelligence and moral values. Our formal education system is failing to nurture the potential of our future generation. Goofi is on a mission to give the power back to parents and teachers with amazing resources and tools so that they can help their children to unleash their creative potential them.
